INDICATIONS

For women during pregnancy and early milking periods. In children who have received the necessary amount during gestation, DHA contributes to a major brain development, a major functional capacity and major IQ. In adults it regulates cholesterol levels.

HOW SUPPLIED

Bottle with 60 softgels.

Famulcer

COMPOSITION

Each tablet contains: Famotidine, 20mg or 40 mg.

INDICATIONS

Famulcer is indicated in: duodenal ulcer, benign gastric ulcer, treatment of pathological hypersecretory conditions such as Zollinger-Ellison Syndrome, and maintenance therapy in the prevention of recurrent duodenal ulcer.

HOW SUPPLIED

Famulcer 20: packages with 28 tablets of 20 mg.

Famulcer 40: packages with 14 and 28 tablets of 40 mg.

Fazoplex

COMPOSITION

Fazoplex 500 Cefazolin (sodium), 500 mg.

Fazoplex 1000 Cefazolin (sodium), 1000 mg.

INDICATIONS

Respiratory, urinary, intestinal tract, skin and soft tissue bacterial infections caused by microorganisms sensitive to Cefazolin.

HOW SUPPLIED

Packages with 1 vial and 1 ampoule of diluent.

Fluocid Forte

COMPOSITION

Fluocinolone Acetonide, 0,2 g in 100 g.

INDICATIONS

Local treatment of cutaneous affections of inflammatory or pruriginous allergic origin, resistant to lower concentrations of Fluocinolone Acetonide and to other corticosteroids: contact dermatitis, seborroheic dermatitis, neurodermatitis, lupus erythematosus, pustular psoriasis, necrobiosis lipoidica, annular granulation, pretibial myxedema, etc.

HOW SUPPLIED

Boxes containing 1 tube of 15 g or 30 g cream.

Norflok

COMPOSITION

Each tablet contains: Norfloxacin, 400 mg.

INDICATIONS

Norflok is indicated for the treatment of upper and lower urinary tract infections, including cystitis, pyelitis and pyelonephritis, caused by Norfloxacin-sensitive bacteria.

HOW SUPPLIED

Packages with 14 and 20 tablets.

Oxatokey

COMPOSITION

TABLETS: Each tablet contains: Oxatomide (I.N.N.), 30 mg.

INDICATIONS

Oxatokey is indicated for the treatment of allergic diseases: rhinitis, conjunctivitis, chronic urticaria, food allergy and in general, for all those hypersensitivity reactions which respond to treatment with antihistaminics.

HOW SUPPLIED

Packages with 25 tablets of 30 mg.

Bottles with 60 ml of pediatric suspension.

Podertonic

COMPOSITION

ADULTS

Choline ferric citrate, 1000 mg (equiv. to 112,6 of elemental iron), excipients, q.s.

CHILDREN

Choline ferric citrate, 500 mg (equiv. to 56,3 of elemental iron), excipients, q.s.

INDICATIONS

Treatment of anemia.

HOW SUPPLIED

PODERTONIC Children: Boxes with 20 drinkable sachets of 5 ml.

PODERTONIC Adults: Boxes with 20 drinkable sachets of 10 ml.

Sanamidol

COMPOSITION

Each capsule contains:

Omeprazole (I.N.N.), 20 mg, excipient, q.s.

INDICATIONS

Duodenal ulcer, gastric ulcer, reflux esophagitis, Zollinger-Ellison Syndrome, prevention of recurrence in severe reflux esophagitis.

HOW SUPPLIED

Packages of 10, 14 and 28 capsules.

Ciproctal

COMPOSITION

Each tablet contains:

Ciprofloxacin (I.N.N.) (HCl), 250 mg, 500 mg or 750 mg,
excipient: q.s.

INDICATIONS

Respiratory tract infections, genitourinary infections,
gastrointestinal infections, bone and joint infections,
and skin and skin structure infections.

HOW SUPPLIED

CIPROCTAL 250: Packages of 10 and 20 tablets of 250 mg.

CIPROCTAL 500: Packages of 10 and 20 tablets of 500 mg.

CIPROCTAL 750: Packages of 10 tablets of 750 mg.

Tensikey

COMPOSITION

Each tablet contains: Lisinopril (I.N.N.) 5 mg or 20 mg, excipients, q.s.

INDICATIONS

Arterial hypertension (essential and renovascular).

Treatment of congestive cardiac insufficiency not responding to treatment with digital drugs and/or diuretics.

Treatment of haemodynamically stable patients in the first 24 hours after an acute myocardial infarction, to prevent the subsequent development of left ventricular dysfunction or cardiac insufficiency, and to improve the survival of patients.

HOW SUPPLIED

Packages of 60 tablets with 5 mg.

Packages of 28 tablets with 20 mg.

Tensikey Complex

COMPOSITION

Each tablet contains: Lisinopril (I.N.N.) 20 mg,
Hydrochlorothiazide (I.N.N.) 12.5 mg, excipients, q.s.

INDICATIONS

Tensikey Complex is indicated in Essential Arterial Hypertension on those patients who need a combined therapy of lisinopril + hydrochlorothiazide.

HOW SUPPLIED

Packages of 28 tablets with 20 mg of Lisinopril and 12.5 mg Hydrochlorothiazide.

NON PRESCRIPTION

Ansokey

Dolokey

Famokey

Ginkgo Forte

Loperkey

Ansiockey

Gingseng**

**FITOKEY
Valerian**

FITOKEY Artichoke

COMPOSITION

Each capsule contains: *Cynara scolymus*, leaf powder, 150 mg, excipients, q.s.

INDICATIONS

It is indicated in hepatic-biliar disorders as it has a protective effect on the liver. It helps production and elimination of bile and cholesterol.

HOW SUPPLIED

Bottle with 80 or 150 capsules.

FITOKEY Harpagophytum

COMPOSITION

Each capsule contains: Harpagophytum procumbens, root bulb powder, 280 mg, excipients, q.s.

INDICATIONS

Thanks to its analgesic and anti-inflammatory properties, it soothes pain and inflammation.

Indicated for the treatment of rheumatic diseases such as lumbago, sciatica and articular pains: arthritis, arthrosis and gout.

HOW SUPPLIED

Bottle with 80 capsules.

FITOKEY hawkweed

COMPOSITION

Each capsule contains: *Hieracium pilosella*, powder of the whole plant, 140 mg, excipients, q.s.

INDICATIONS

Its high content of flavonoids presents noticeable diuretic properties. Indicated for hydric disorders and their consequences: water-retention, oedema, swollen legs and hypertension.

HOW SUPPLIED

Bottle with 80 capsules.

FITOKEY Passion Flower

COMPOSITION

Each capsule contains: *Passiflora incarnata*, powder from aerial parts, 230 mg, excipients, q.s.

INDICATIONS

It holds sedative properties affecting the central nervous system. Perfectly indicated to reduce nervous strain in adults and children: stress, anxiety, and restlessness. It also fights the sleeplessness that usually comes with nervous states.

HOW SUPPLIED

Bottle with 80 capsules.

FITOKEY Pineapple

COMPOSITION

Each capsule contains: *Annanas sativa*, stalk powder, 280 mg, excipients, q.s.

INDICATIONS

Anti-cellulitic. Indicated for digestion disorders and weight loss diets. It holds proteolytic, anti-inflammatory, diuretic and slightly laxative properties. Due to its contents in bromelins it makes digestion easier and avoids dyspepsia.

HOW SUPPLIED

Bottle with 80 capsules.

FITOKEY Sacred Bark Tree

COMPOSITION

Each capsule contains: *Rhamnus purshiana*, bark powder, 200 mg, excipients, q.s.

INDICATIONS

It is indicated in the treatment of constipation and its effects. It holds laxative and slightly diuretic properties.

HOW SUPPLIED

Bottle with 40 and 80 capsules.

FITOKEY Siberian Gingseng

COMPOSITION

Each capsule contains: *Eleutherococcus senticosus*, root powder, 220 mg, excipients, q.s.

INDICATIONS

Tonic-stimulant, energizer and reconstituent. Indicated in states of physical fatigue, weakness and those symptoms that come with organic decline. It increases performance at work and those situations that require an over effort, like sports or studies.

HOW SUPPLIED

Bottle with 80 capsules.

FITOKEY Valerian

COMPOSITION

Each capsule contains: *Valeriana officinalis*, root powder, 240 mg, excipients, q.s.

INDICATIONS

Tranquillizer, sleep-inductive, anti-spasmodic. Indicated for emotional states of excitability, anxiety, stress, insomnia and, in general, for those processes implying nervous alterations.

HOW SUPPLIED

Bottle with 80 capsules.
